TORO B-Range Details

TORO MATERIAL LIFTS ARE EQUIPPED WITH TWO SAFETY SYSTEMS

Auto-brake winch.
CE Machinery Directives

Internal Pendulum
Brake System (IPB)

Mast Section Unblocking
System (MSU)

More mast overlap.
Prevents fishing rod effect

Adjustable manoeuvring handle
with wheels included.

Reinforced forks included.
(Detachable). Reversible &
Adjustable design.

2 Stabiliser braces for
greater lift stability.

Adjustable mast blocking
system for horizontal trans-
portation.

Spirit level

Folding side legs
included

Legs can be inserted in
the front or back of the
tower for positioning close
to walls.

Adjustable legs

Compact designs and 12 wheels included for
easy manoeuvring (Vertically and horizontally)

Ø150 mm adjustable
wheels for perfect levelling.

ELECTRIC LIFTING SYSTEM

ELECTRIC

2 Systems in 1 - Manual & Electric

Practical system that allows you to raise the load electrically.

*This adaptor is not suitable for the A-Range towers.

Electric Lifting System for TORO Lifters (B - C - D Ranges)

With this practical and very safe system, you have the possibility to raise and lower the TORO material lifts electrically (ranges B, C and D); converting the manual towers into electric towers.

The 'ELECTRIC' system is a very useful accessory which allows you to quickly and effortlessly raise the TORO lifters guaranteeing utmost safety at all times.

The accessory is made up of an industrial drill (brand: METABO, Germany), a power reducer and an adaptor to secure it to the hand winch on the lifter.

The adaptor ensures a firm fix of the drill so that the user is not required to hold the drill in place, allowing to work with just one hand.

The 'ELECTRIC' system is installed quickly and easily and has the following references depending on the tower it will be used with:

TORO B-Range towers — ref. ELECTRIC-B/2

Adapter and drill for ELECTRIC operation of TORO B-Range Lifts. Price includes a single-handled AL-KO 901 winch to replace the double-handled BULL300-D (Net Weight: 7.30 kg – without winch)

TORO C-Range towers — ref. ELECTRIC-C/2

Adapter and drill for ELECTRIC operation of TORO C- & E-Range Lifts. Price includes a single-handled AL-KO 901 winch to replace the double-handled BULL400-D (Net Weight: 7.30 kg – without winch)

TORO D-Range towers — ref. ELECTRIC-D/2

Adapter and drill for ELECTRIC operation of TORO D-Range Lifts. (Net Weight: 7.10 kg)

NOTE: When this electric system is used the TORO D-Range towers have a maximum load capacity of 350 kg.

APPLICATIONS

GUIL manufactures a wide range of innovative material lifts, adapters and accessories designed to cover the needs for a large variety of applications:

CE

| HVAC

| GLASS

| AWNINGS & SHELTERS

| ROLLER SHUTTERS & BLINDS

| INSTALLATIONS

| MAINTENANCE WORK

| PIPING & DUCTS

| METALWORK

| CARPENTRY

| EXHIBITION STANDS
