Standard radio remote control

Optional radio remote control with digital feedback

With the ability to lift up to 6 tonnes, the URW 706-2 is able to lift to a maximum hook height of 25.9 metres, an extra 3 metres more than the standard model. This additional hydraulic jib/searcher hook makes it a truly versatile machine and provides that extra reach for tricky lifting projects. The UNIC URW-706-2 can be controlled from the operators driving seat or by a fully functional radio remote control for precise placement of loads. Digital feedback and data logging are also available as extras where required.

OPTIONAL VARIABLE FOOTPRINT INCLUDING SLEW & HEIGHT LIMITATION
